Get High Speed Wireless Internet Access on your boat!

That's right... get online with the freedom of wireless access. You can now this new high speed service to surf the Internet, check your email, and shop online all from the convenience of your own computer!

Getting online is quick and simple. All you need is a laptop computer, a wireless access card (802.11b compatible, WiFi compliant) and a subscription to our service.

Through our service provider, NetNearU, we are able to offer you the following rate plans:

Pay Per Day	
\$8.95 per login	24 hour limit - unlimited use
Monthly Subscriptions	
\$49.95 - 500 Minute Monthly (\$3.99 per additional minute)	\$89.95 - Unlimited Monthly

Accessing the Wireless Network

Connecting to our Wireless Network is a three-step process:

Step 1: To use this network, your wireless card's SSID should be set to "nnu". The location of this setting varies, but can often be found in the card's control on the toolbar or "Network Settings" in the control panel. If you find that you cannot access the network after making this change, please verify that your card is set to "infrastructure" mode and WiFi is disabled. These settings are normally found with the SSID. If you use other wireless networks, you should make note of your original settings. You will need these to gain access to the other network(s).

Step 2: Open your web browser.

Step 3: Set up your account.

That's it! You are now ready to surf the web, check your e-mail, and shop online. If you experience any difficulties connecting to the network, please contact Customer Support at 1-866-497-5177.

If you are interested in purchasing a card, 802.11b compliant cards are available at most consumer electronics stores.

No wires, No Boundaries... Experience the Freedom!

This card entitles you to a \$10 (USD) credit towards a 90-day session of NetNearU Wireless Access.

Instructions:

- Insert NetNearU Card
- Set SSID to nnu.
- Open web browser.
- Login in with your pin code.
